

Jadis JPL

Specification

Type	Stereo line preamplifier
Gain	23dB(CDstage)/25dB(Line)
Input	4 line, 1 tape monitor
Bandwidth @-3dB	20Hz-70KHz
Input impedance	1M Ω (CDstage)/100K Ω (Line)
Tubes list	1 x ECC82, 3 x ECC83
Dimensions	43 x 29 x 17 cm
Weight	15 Kg
Consumption	25 W

Description

Built-in stereo preamplifier, the JPL includes 5 line inputs and one tape with monitoring.

Listening

The JPL will bring you an inherent sense of dynamic gradation, but also soundstage transparency and mastery over the elements of spatial resolution.

I never felt that the Jadis was holding back or blunting the power and rise-time of orchestral peaks. I've never heard a preamp so convincingly delineate the dynamic range from soft to very loud.

This is one of those rare products guaranteed to dramatically improve your system. Be prepared for a dynamic eruption that will nudge you much closer to the illusion of live music.
